

A Message from the Makers of CHILDREN'S CLARITIN®:

You may have seen recent news reports about manufacturer voluntary withdrawals of infant OTC cough and cold medicines. We want you to know that these actions **do not** apply to CHILDREN'S CLARITIN® or any CLARITIN® products.

- CHILDREN'S CLARITIN® is a non-drowsy allergy product, not a cough and cold product.
- The ingredient in CHILDREN'S CLARITIN® is the only over-the-counter antihistamine that has been approved by the FDA as being safe and effective for use in children ages 2 and up.
